

AICC's Safety Products

SAFETY COMES FIRST

MAKE YOUR PLANT THE SAFEST IT CAN BE WITH AICC'S SAFETY PRODUCTS.

NEW! Operation Safe Shop

For the first time ever, AICC is releasing the information produced not only from the winning entries, but all companies who entered the Operation Safe Shop Competition. This will give AICC members an opportunity to review samples of safety programs to help improve, compare, and bring greater awareness to box plant safety.

Lift Truck Safety

One potential hazard is a moving forklift truck. Always look both ways before crossing an aisle way. And never approach a truck from the back or front because drivers may not see you.

An informative and fact-filled video that covers lift truck inspections, lift truck accidents, safe operating practices and proper procedures.

SafetyFirst DVD

AICC's six-part Safetyfirst DVD provides an overview of safety in and around a corrugated manufacturing facility. Staying alert and watching for the hazardous situations in a corrugated plant is critical to safety.

The Safetyfirst DVD is a great source for training new employees and serves as a refresher for the veterans of the industry. It's never too late to learn about danger and hazardous situation and how to protect yourself, your co-workers and employees.
